Schools within The University of Texas Systems have access to **seekUT**, a resource that offers users insights into the median earnings of graduates who are employed full-time one, five, and ten years after graduation. Below, you will find the information provided in **seekUT**, retrieved March 2024.

The results for **seekUT** were conducted in March 2024 and have similar average starting salaries as departmental surveys conducted in the past. An interesting feature of **seekUT** is that you can compare other programs in the college and the university. As seen below, the **BS in Industrial Technology graduates** have higher average salaries than all of the other majors in the college.
