Course Description: Study of the Advanced Practice Nurse (APN) role. The evolution of the role, current and continuing issues relevant to advanced practice nursing, and clinical practice issues related to health promotion and disease prevention.

Prerequisite

Admission to any MSN degree program or FNP or PMHNP post-master's certificate.

Student Learning Outcomes:

Upon successful completion of this course, the student will be able to:

1. Examine the historical evolution of advanced practice registered nursing roles.
2. Evaluate the key National Organization of Nurse Practitioner Faculty (NONPF) concepts and competencies related to advanced practice registered nursing.
3. Examine the scope of practice within the advanced practice registered nursing roles and responsibilities of provider, teacher/educator, advocate, consultant, and collaborator.
4. Compare operational definitions and differing scopes of practice for selected advanced practice registered nursing specialties.
5. Investigate the impact of current health policy, billing & coding, and reimbursement on advanced practice registered nursing roles.
6. Describe key factors essential for marketing the Nurse Practitioner role, including formulating, articulating, and negotiating APRN positions.

Required Textbooks and Readings:

Buppert, C. (2018). *Nurse practitioner's business practice and legal guide (6th ed.)*. Sudbury, MA: Jones & Bartlett Learning.

Joel, L. (2017). *Advanced practice nursing: Essentials for role development. (4th ed.)*. F.A. Davis: Philadelphia, PA.

The readings are identified within the respective Canvas Modules.

Special Course Notes:

This course will study the Advanced Practice Registered Nurse (APRN) role and selected issues such as the scope of practice, political, economic, and legislative influences are analyzed. The historical development and acceptance of the nurse practitioner role is traced through nursing practice acts, requirements imposed by boards of nursing, national certification efforts, third party payment systems, and various professional organizations.

Grading Scale:

Specific guidelines and grading criteria for all assignments are in the Modules. Final grades for the course will be determined based upon the following point assignments:

A - 90-100

B - 80-89

C - 70-79

D - 60-69

F - Below 60

Grades will not be rounded when calculating the average (79.5 is not rounded to 80, and 89.5 is not rounded to 90). The simple average of all unit exam grades, including a final must be at or above 80% to pass the course. Once the student has achieved a simple unit exam average of 80% or higher, course grades will be determined based on the weighted calculation of exams and other required course work. Students are required to achieve an average of 80% (B) to complete the course successfully.

Although the university policy allows 60 days for grade appeals, the School of Nursing follows a stricter timeline of 10 days to facilitate students' timely progression through the curriculum. In the case of extenuating circumstances, please consult the Associate Dean of Academic Affairs for guidance.

Academic Integrity: Cheating of any kind, as defined in Section 8 of the UT Tyler Manual of Policies and Procedures (MOPP) for Student Affairs (<https://www.uttyler.edu/mopp/>), will not be tolerated. Consequences may include:

- reprimand
