

Microbiology Laboratory
Section 002: Thurs., 2:00 pm– 4:50 pm
Dr. Riqing Yu Office: HPR 105

BIOL 4101-002
Lab: BEP 132
Fall 2023

Laboratory description: In this lab course, you will learn basic microbiological laboratory skills in culturing, isolation, and identification of bacteria (culture-based) from environmental or human samples. After isolating the novel bacterial strains, you will have chance to practice a series of microbial molecular biological techniques, including genomic DNA extraction, 16S rRNA gene amplification by PCR, gel electrophoresis, DNA purification and sequencing, gene blasting and phylogenetic/bioinformatic analysis. This lab will also provide training in enzyme activities and antibiotic disk assay.

Laboratory objectives: To learn basic microbial techniques and procedures that will benefit your future studies or jobs in biomedical, industrial, environmental, and education careers; To learn how to design and carry out novel microbial and environmental experiments; To learn how to write a scientific laboratory report.

Lab manual: This Microbiology Laboratory Manual is optimally designed for use of students who are concurrently taking a lecture class in Microbiology. A lab manual will be provided in the first week in the lab upon purchase at a basic printing cost.

Grading: Each lab report or assignment will be 100 points-based (10% of the total score). Final grades will be calculated as follows. Your overall letter grade will be rounded up one level if your grade is only within 1 point lower than the grade scale.

<u>Assignments</u>	<u>% of Final Scores</u>
Lab reports	50%
Midterm exam	20%
Lab participation and liability	10%
Final exam	20%

Final grade scale				
A: 90-100%	B: 80-89%	C: 70-79%	D: 60-69%	F: <59%

There will be no make-up labs. If you miss two or more labs without pre-notice and legitimate absence reasons, 15% of total points will be deducted from your overall lab grade.

Makeup tests: In the case of illness, sport competitions or other excused absences, you will be only given one chance of makeup exam if you notify the professor before the exam. You must have a note from your physician, a coach or whoever is appropriate for explaining a legitimate absence. If you are not excused, you will receive a zero. No one may take the final exam early.

Lab reports: Each lab report will generally be 3-5 pages (1 or 1.5 lines) long and include graphs and/or tables. The report will be in a simplified format of a journal article (Introduction, Materials & Methods, Results, Discussion, and References Cited). Five labs will be designated for the report write-ups. **Lab report will be generally due a week after completion of the lab, and you need to turn in the lab report online on the Canvas before the due time. Late lab report without justified reason and pre-notice will cause 10% grade deduction per day.**

Cleanup as the lab liability: Before leaving the lab, you have the liability to clean up what you have done, put away all waste, rinse any used glassware, disinfect unwanted cultures and the lab bench, etc. Those are parts of your experiments. Do not leave a mess, and do not expect someone else to clean up after you. Leaving a mess will cause loss of your liability points as the point loss of lab participation when you are absent without legitimate reasons.

Laboratory protection and safety:

- a. Read and understand each lab procedure before starting the lab.
- b. Always wear safety goggles and gloves whenever working with chemicals, flames or anything that may be infective. The lab will provide safety glasses and gloves.
- c. Lab coats are also provided and required to be worn in the experiment.
- d. Treat all chemicals as potentially hazardous and dispose of waste according to instructions.
- e. Eating, drinking, smoking, tobacco chewing, etc. are not allowed in the lab.
- f. No wearing of shorts, skirts, loose clothing, or open-toed shoes.

Important Covid-19 Information of UT Tyler for Classrooms and Laboratories: It is important to take the necessary precautions to ensure a healthy and successful year. UT Tyler continues to urge you to protect yourselves against the flu, COVID and any new threats that may be developing. Be diligent about preventive measures such as washing hands, covering sneezes/coughs, social distancing and vaccinations, which have proven to be successful in slowing the spread of viruses. Encourage those who don't feel well to stay home, and if they show symptoms, ask them to get tested for the flu or COVID. Self-isolation is important to reduce exposure (CDC quarantine/isolation guidelines).

Students who are feeling ill or experiencing symptoms such as sneezing, coughing, or a higher-than-normal temperature will be excused from the class or laboratory and should stay at home and may join the course or lab remotely by Zoom. Students needing additional accommodations may contact the Office of Student Accessibility and Resources at University Center 3150, or call (903) 566-7079 or email saroffice@uttyler.edu.

Academic integrity: Students are reminded of their pledge to uphold the University of Texas at Tyler Honor Code. Please refer to <http://www.uttyler.edu/educpsych/files/HonorCode.pdf> for guidelines covering academic fraud as they may apply to the course assignments and exams. Information used in your report which is copied from other documents should be referenced appropriately. Members of lab groups will collaborate on experiments, calculation and interpretations. However, the members should answer the questions and write the lab report independently.

Disability/Accessibility services: In accordance with Section 504 of the Rehabilitation Act, Americans with Disabilities Act (ADA) and the ADA Amendments Act (ADAAA), the University of Texas at Tyler offers accommodations to students with learning, physical and/or psychological disabilities. If you have a disability, including non-visible a diagnosis such as a learning disorder, chronic illness, TBI, PTSD, ADHD, or you have a history of modifications or accommodations in a previous educational environment, you are encouraged to visit <https://hood.accessiblelearning.com/UTTyler> and fill out the New Student application. The **Student Accessibility and Resources (SAR)** office will contact you when your application has been submitted and an appointment with Cynthia Lowery, Assistant Director Student Services/ADA Coordinator. For more information, including filling out an application for services, please visit the SAR webpage at <http://www.uttyler.edu/disabilityservices>, the SAR office located in the University Center, # 3150 or call 903.566.7079.

Tentative Lab Schedule¹

Section 002

Date		Topic	Lab Report	
			Starting day	Due day
Thu	Aug 24	Lab 1 Preparing a Culture Medium, and Culturing and Handling Microorganisms	No report	
Thu	Aug 31	Lab 2 Bacterial Strain Isolation by Using Plate Streaking Technique	No report	
Thu	Sept 07	Lab 3 Microscopy and First Isolation of Environmental Strains	No report	
Thu	Sept 14	Lab 4 Gram Staining and 2nd Environmental Strain Isolation	Lab Isolation report (2-4)	
Thu	Sept 21	Lab 5 Antibiotic Disk Assay	Lab Antibiotic report (5)	Lab I (2-4)
Thu	Sept 28	Lab 6 Bacterial Genomic DNA Extraction (Part I)	No report	Lab II (5)
Thu	Oct 05	Lab 7 Nucleic Acid Measurement and PCR Amplification of Bacterial 16S rRNA Genes (Part II)	No report	
Thu	Oct 12	Lab 8 Gel Electrophoresis of Microbial 16S rRNA Genes (Part III) (Exam Review during gel solidification period)	No report	
Thu	Oct 19	Midterm Exam	Instructor re-runs PCR/gel to get extra PCR products	
Thu	Oct 26	Lab 9 Purification of Bacterial 16S rRNA Genes (Part IV)	Lab PCR report (6-9)	
Thu	Nov 02	Lab 10 Microbial Metabolism and Enzymes	Lab Enzyme report (10)	Lab III (6-9)
Thu	Nov 09	Lab 11 Gene Analysis and Basic Bioinformatics Tools (Part V)	No report	Lab IV (10)
Thu	Nov 16	Lab 12 16S rRNA Gene Sequencing and Phylogenetic Analysis (Part VI)	Lab Phylo-report 11-12	
Thu	Nov 23	Thanksgiving Holiday		
Thu	Nov 30	Final Exam (Lab 9-12, & Chapter 19 Microbial Taxonomy)		Lab V (11-12)
Thu	Dec 07			

¹ Schedule is subject to change. Total five lab reports. BIOL 4101 Microbiol. Lab: Permission# (Contact Valdimé Walker).
