Course Description:

We will explore American history from human origins in North America (~13,000 BCE) to the Civil War (1865). In doing so, we will examine social, political, environmental, cultural, diplomatic, and military history and how each together shaped the course of American history.

Content Objectives:

Upon completion of this course, students should be able to:

1. Demonstrate a strong understanding of the development of the United States in both a domestic and global context.
2. Develop analytical skills through thinking deeply, reading actively, and writing carefully about American history.
3. Gain a strong sense of scholarly skepticism by balancing everything with hefty amounts of context and perspective; Or, in the spirit of Voltaire, embrace the certainty that nothing is certain and that everything is and ought to be open to (careful and thoughtful) interpretation.
4. Appreciate and understand that accurate interpretations (see above) can *only* rest on ample and sturdy evidence.

More Specifically, after completing this course, you should be able to:

1. Identify and evaluate significant individuals, events, and eras in the history of the United States.
2. Recognize and analyze political, social, and economic changes in the history of the United States.
3. Identify and evaluate causes and effects of domestic and international issues and events in the history of the United States.
4. Apply relative chronology through the sequencing of significant individuals, events, and eras in the history of the United States.

Important Note:

I encourage you to meet with me or email me regularly to discuss or clarify lectures or reading—or to talk about American history in general. My job (and satisfaction) is as much to work with students on an individual basis as it is to lecture and facilitate discussion. Please keep this in mind throughout the semester.

Also, some semesters, life gets in the way. Should you have one of these semesters, I am more than happy to talk to you about what to do. But if the trauma is too great, I strongly suggest you drop one or all of your courses. Your education is vitally important, but there are things that outrank even education sometimes—and you have to make that call when it is necessary. I cannot grade you on how well or poorly you deal with your life at given moments. Your grades reflect your performance in class—not how well you are dealing with other things. I wish all of us a semester in which these things aren't issues.

Another Important Note:

When you finish this course, my goal is for you to have a strong understanding of the major themes, characters, and connections in the story of early America, and I hope you will recognize how enormously impactful this period has been (and remains) in our world today—politically, militarily, environmentally, diplomatically, socially, culturally, and so on. To fully understand and appreciate any story, it is imperative that you know-well the characters and events in that story. So you must commit to memory a lot of material (characters and events) for this class.

What class/subject does not require that you remember things? This said, I recognize and appreciate that specific names, events, etc., fade in time. (They fade for me, too.) That's okay. This stuff is the scaffolding. Like scaffolding for any structure, real or perceived, it is critically important early on, but it is not meant to stay forever—just long enough such that the finished product emerges in all its glory and remains for the ages. Simply put, the finished product for this course is your general understanding and appreciation for the early American past—an understanding and appreciation that I hope will remain long after the details fade.

Required Reading and Materials:

1. Textbook:

This semester the book is a free PDF textbook. The PDF file is provided for you in Canvas and you can download it from there. The website is also provided below.

Website: <https://openstax.org/details/books/us-history>

Also, PowerPoints, outlines, notes, timelines, articles, videos, lectures, etc. uploaded onto Canvas

Course Structure:

All modules will be available for a limited period of time, and you may work through them at your own pace so long as you complete all required materials for each module before the due date for those assignments. The assignments will close (i.e. no longer be available) at the end of the period for that modules. Check Canvas for due dates and time.

Waiting until the last minute to do the assignments is not advised. Having a computer issue, internet issue, Canvas issue, or any other issue on the date an assignment is due is not an excuse for not completing an assignment, and no additional time will be granted. If you do the work early and an issue presents itself, then there is time for us to work together and resolve it so that you can submit the work by the due date.

As all quizzes and assignments are available online for some period of time, they cannot be made up if they are not completed before the modules closes.

Individual exams may not be made up. If a student misses one exam, they will have to take the final exam at the end of the semester to replace the 0. A second missed exam will stay a 0.

Online Quizzes:

There will be 11 quizzes, each consisting of 20 multiple-choice and true/false over the lectures, textbook, and unit notes for each unit. Each quiz is worth 20 points. Quizzes are designed to help familiarize you with at least some of the important material that will be on the exams and to make sure you are reading. These quizzes are open book and open note. Module Quizzes are a total of 200 points for the semester and one of these grades is dropped. No late work is 50% off per day. **Group work is not allowed, all assignments and exams are to be completed individually, you are not allowed to discuss the questions or share answers to them. Doing so is a violation of the policies established by the university and is considered academic dishonesty.**

Going back and using the second attempt on a quiz after the due day will result in it being marked as late, and you will keep that grade. Usually that is a 0. I suggest using both attempts before they are due to get a higher grade and have access to the correct answers that unlock after the final attempt is taken, so you can use them as a study tool for exams.

Online Assignments:

Additionally, there will be 15 assignments over the course of the semester and they will vary in nature. They will be worth 5 points each. The lowest two of the assignment grades will be dropped at the end of the semester, so 13 will count for a total of 65 points. No late work is 50% off per day. The student introduction grade will not be dropped.

There will also be one writing assignment given over the course of the semester. It is an essay worth 20 points and the grade will not be dropped. Late work is not accepted for the writing assignment and AI writing assistance is not allowed on this essay.

Exams:

There will be four unit tests and a final exam. Each exam will consist of a mixture of multiple choice and true/false questions for a total of 100 points. There is a study guide posted for each exam. **Also there are no make-up exams or alternative assignments given once a test has been missed. There are 5 exams given over the semester and one of them is dropped.** If you miss an exam, then that will be your dropped test grade. If you miss multiple exams that are open for an extended period of time because of an emergency situation then I encourage you to reach out to the CARE team on campus for that they can help you and determine the best course of action. No provisions are made in this course for missing more than one test in a semester. If you are going to miss an exam because of a school activity, you must make arrangements to take the exam prior to the day the exam will be given, as they are open the entire time the unit is.

Artificial Intelligence (AI) Usage Statement

UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.

Make-up Policy:

Late work is accepted at a 50% reduced grade per day. You have ample time to complete each assignment, at least a week, and waiting until the last minute to do an assignment is not advised. If you have a computer issue, internet issue, or any other issue on the date an assignment is due is not an excuse for not completing an assignment and no additional time will be granted. If you do the work early and an issue presents itself, then there is time for us to work together and resolve it so that you can submit the work by the due date.

*****IMPORTANT***** There are no make-up exams or alternative assignments given once a test has been missed. **If you are going to miss an exam because of a school activity, you must make arrangements to take the exam prior to the day the exam will be given, please contact me the week before the test to set up a date and time.** In cases of **emergency** (i.e., a death in the family), however, students will be allowed to take the exam early at the discretion of the Instructor, and the student must provide documentation. Missing an exam does not ensure the student will be able to take the test early, such a decision is ultimately the professor's prerogative. Please contact me as soon as possible if you miss something for an emergency and we will work out the details. If you do miss an exam, you will have to take the final exam.

Syllabus Notice:

The instructor reserves the right to alter the syllabus; however, students will be given ample warning to any possible changes.

Email Policy:

Per university request, I will only communicate with students via your Patriot email accounts. The university has had several problems reaching students with vital questions or information because they do

not check their Patriot email, and they have asked faculty to require that students use their Patriot email accounts. All responses to student email will be sent only to your Patriot email account (even if you send the email from some other account). Email sent from any non-Patriot email account will not be answered.

Grade Replacement/Forgiveness and Census Date Policies

Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. Grade Replacement Contracts are available in the Enrollment Services Center or at <http://www.uttyler.edu/registrar>. Each semester's Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date is the deadline for many forms and enrollment actions of which students need to be aware. These include:

- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a "W" grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

State-Mandated Course Drop Policy

Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date).

Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

Student Absence for University-Sponsored Events and Activities

If you intend to be absent for a university-sponsored event or activity, you (or the event sponsor) must notify the instructor at least two weeks prior to the date of the planned absence. At that time the instructor will set a date and time when make-up assignments will be completed.

It is the policy of The University of Texas at Tyler to protect the confidential nature of social security numbers. The University has changed its computer programming so that all students have an identification number. The electronic transmission of grades (e.g., via e-mail) risks violation of the Family Educational Rights and Privacy Act; grades will not be transmitted electronically.

If you require assistance during an evacuation, inform your instructor in the first week of class. Do not re-enter the building unless given permission by University Police, Fire department, or Fire Prevention Services.
