

## Math 0303 – Intermediate Algebra - Spring 2025

**Instructors:** Mr. Aaron Boateng

**Office:** RBN 4038

**Office Hours:** Mr. Boateng: 2:00-3:30pm TR in RBN 4038 or by appointment.

**Emails:** [aboateng2@patriots.uttyler.edu](mailto:aboateng2@patriots.uttyler.edu)

**Web:** class page on Canvas    **Class Meeting Time:** 9:30-10:50 TR in RBN 3041

**Required Text:** None.

**Prerequisites:** This course is open to TSI-liable students.

**Course Description:** A study of the real number system, fractions, decimals, absolute values, percentages, comparisons and proportional reasoning, signed numbers, solving linear equations and inequalities, simplifying expressions and functions.

**Student Learning Outcomes:** Upon completion of this course, students should be able to do the following:

- Demonstrate an understanding of the real number system by doing arithmetic with real numbers, graphing numbers on the real number line, simplifying algebraic expressions using properties of real numbers, and by constructing algebraic expressions.
- Solve linear equations and inequalities, find equations of lines, and graph linear equations and inequalities.
- Evaluate and graph functions and be able to analyze the graph of a function.
- Demonstrate knowledge of exponent and radical rules by simplifying and rewriting algebraic expressions involving exponents and radicals.

**Course Evaluation:** This course is not credit-bearing. To pass the class a student must pass an Intermediate Algebra exam with a score of 70% or greater.

### **Important Dates:**

January 20 – Martin Luther King, Jr. Day - Holiday, no class.

January 27 – Census date. Last day to change schedule or file for grade replacement.

March 17-21 – Spring Break, no class

March 31 – Last day to withdraw.

**A note about this course:**

Math 0303 will be taught on a 5-week cycle. After the first cycle, students will be given a test. If a student earns a passing grade of 70% or above, the student has completed the course. If not, the student will repeat the 5-week cycle and have another chance to take the exam. In total, each student will have 3 opportunities to pass the exam.

**Test Dates:**

Test 1 (first attempt): Thursday, February 13 (in class)

Test 2 (second attempt): Thursday, March 27 (in class)

Test 3 (third attempt): Thursday, May 1 at 9:30am

**Course Material:**

Here are the topics covered in this course during each 5-week cycle. The daily schedule is approximate and may change during the semester.

## Week 1:

- 1.1 The Real Numbers
- 1.2 Operations, Percentages, and Decimals
- 1.3 Fractions

## Week 2:

- 2.1 Lines
- 2.2 Distance
- 2.3 Absolute Value Equations

## Week 3:

- 3.1 Inequalities
- 3.2 Word Problems
- 3.3 More Word Problems

## Week 4:

- 4.1 Polynomials
- 4.2 Factorization
- 4.3 Solving Quadratic Equations

## Week 5:

- 5.1 Exponents and Radicals
- Test

**Calculator Policy:** No calculators will be allowed in this course.

**Policies:** See

<https://www.uttyler.edu/offices/academicaffairs/files/syllabusinformation.pdf> or the syllabus module on Canvas for many important University policies.

UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.

For this course, all graded work must be done in person without the assistance of AI.
