Canvas:

This online class will be conducted through Canvas. If you experience any problems logging into Canvas or any technical problems with the system you should seek help from Campus Computing. They can be reached via email at itsupport@patriots.uttyler.edu. Please include your full name, student ID number and date of birth in any communications you send to them. If you experience any issues in Canvas, such as a locked module, you need to reach out to Canvas support and email me as well.

Course Description:

This course is an examination of the Texas political system, including its intellectual foundations and the design of the Constitution. It includes study of the major institutional factors, the impact of interest groups and the media, and the processes of policy-making. It may be taken in fulfillment of statutory requirements for a baccalaureate degree.

Content Objectives:

The primary goal is to successfully complete a required course with minimal pain and suffering while gathering useful information. To that end, after successfully completing this course, students should be able to demonstrate:

- To acquaint you with the study of political science, and
- To improve your understanding of the institutions and processes that govern Texas and other states, as well as the localities (such as cities and counties) within them.
- The student will become familiar with the historical antecedents which make up the political culture and regions of Texas.
- The student will learn to characterize the trends in Texas’ political history.
- The student will be able to trace the changing political partisan face of Texas from a one-party Democratic state to a state with a strong Republican party.
- The student will become cognizant of the changes facing Texas in ethnic diversity and population growth.

Important Note:

I encourage you to meet or message with me regularly to discuss or clarify lectures videos, or reading—or to talk about government or history in general. Please keep this in mind throughout the semester.

Also, some semesters, life gets in the way. Should you have one of these semesters, I am more than happy to talk to you about what to do. But if the trauma is too great, I strongly suggest you drop one or all of your courses. Your education is vitally important, but there are things that outrank even education sometimes—and *you have to make that call when it is necessary*. I cannot grade you on how well or poorly you deal with your life at given moments. Your grades reflect your performance in class—not how well you are dealing with other things. I wish all of us a semester in which these things aren't issues.

Required Reading and Materials:

Textbook:

The textbook is a free PDF – *Uncovering Texas Politics*. You will also be given book chapters and other materials that will be uploaded onto Canvas. They are a required part of the course and you are responsible for the information presented in them. There is no official textbook for you to purchase.

Course Structure:

This course will be conducted in four units and there will be one exam over the material in each unit. All units will be available for a limited period of time, and you may work through them at your own pace so long as you complete all required materials for each unit before the exam for that unit ends. The units will close (i.e. no longer be available) at the end of the period for that unit/exam group. Check Canvas for due dates.

The attendance policy is to log on daily for this three-week course and complete work in the current unit. You are welcome and encouraged to work ahead. However, waiting until the last minute to do the assignments is not advised. Having a computer issue, internet issue, Canvas issue, sudden illness, or any other issue on the day that assignments are due is not an excuse for not completing them, and no additional time will be granted. If you do the work before the hard deadline and an issue presents itself, then there is time for us to work together and resolve it so that you can submit the work by the due date. The university has computer labs for you to use and most places have wifi now.

Again, all quizzes, assignments, and exams are available online for some period of time, and not just one or two days. Because of this, they cannot be made up if they are not completed by the due date. Remember to check Canvas for due dates.

Online Quizzes:

There will be 12 quizzes, each consisting of 20 multiple-choice and true/false over the lectures, textbook, and other content for each chapter module. Each quiz is worth 20 points. Quizzes are designed to help familiarize you with at least some of the important material that will be on the exams and to make sure you are reading. **These quizzes are open book and open note. Module quizzes submitted late are reduced 50% of the grade per day.**

Online Exams:

There will be four-unit tests. Each exam will consist of a mixture of multiple choice and true/false questions for a total of 100 points. There is a study guide posted for each exam. If you miss a test, there are no make-up exams given for individual exams. At the end of the semester, your lowest test grade is dropped, so if you miss an exam, that is the dropped grade. See schedule below for due dates. Test counts for a total of 300 points after one dropped grade. **No lockdown browser or proctoring software is required for exams or quizzes this semester. However, Exams are NOT open book or open note and outside resources, like google, are not allowed. To ensure academic honesty, you must complete the quizzes for each module before taking the exam, or else you will be given a 0 on the test. Once**

you answer a question, you cannot go back to it and there is a time limit. These measures are taken because I do not require a lockdown browser or test monitoring software on exam since they generally make students have anxiety and score poorly.

Points Breakdown:

Online Quizzes: 220 pts

Artificial Intelligence (AI) Usage Statement:

UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.

The written work submitted by students in this course will be generated by themselves. This includes all process work, drafts, brainstorming artifacts, editing, and final products. Any instance of the following constitutes a violation of UT Tyler's Honor Code: a student has another person/entity do any portion of a graded assignment, which includes purchasing work from a company, hiring a person or company to complete an assignment or exam, using a previously submitted assignment and/or using AI tools (such as ChatGPT).

Online Classroom Conduct/Decorum:

Practice decorum and decency in all discussion posts and communication with fellow students and the instructor. More than one offense will result in possible dismissal from the class. For further reading on Internet decorum, I recommend that you take a look at UT-Tyler's ["Netiquette" Guide](#).

Make-up Policy:

Module assignments submitted late are reduced 50% of the grade per day. No late exams are accepted. You have ample time to complete each assignment and the exams, and waiting until the last minute to do an assignment is not advised. If you have a computer issue, internet issue, or any other issue on the date an assignment is due is not an excuse for not completing an assignment and no additional time will be granted at full credit. If you do the work early and an issue presents itself, then there is time for us to work together and resolve it so that you can submit the work by the due date.

Syllabus Notice:

The instructor reserves the right to alter the syllabus; however, students will be given ample warning to any possible changes.

Email Policy:

Per university request, I will only communicate with students via your Patriot email accounts. The university has had several problems reaching students with vital questions or information because they do not check their Patriot email, and they have asked faculty to require that students use their Patriot email accounts. All responses to student email will be sent only to your Patriot email account (even if you send the email from some other account). Email sent from any non-Patriot email account will not be answered.

Grade Replacement/Forgiveness and Census Date Policies

Students repeating a course for grade forgiveness (grade replacement) must file a Grade Replacement Contract with the Enrollment Services Center (ADM 230) on or before the Census Date of the semester in which the course will be repeated. Grade Replacement Contracts are available in the Enrollment Services Center or at <http://www.uttyler.edu/registrar>. Each semester's Census Date can be found on the Contract itself, on the Academic Calendar, or in the information pamphlets published each semester by the Office of the Registrar.

Failure to file a Grade Replacement Contract will result in both the original and repeated grade being used to calculate your overall grade point average. Undergraduates are eligible to exercise grade replacement for only three course repeats during their career at UT Tyler; graduates are eligible for two grade replacements. Full policy details are printed on each Grade Replacement Contract.

The Census Date is the deadline for many forms and enrollment actions of which students need to be aware. These include:

- Submitting Grade Replacement Contracts, Transient Forms, requests to withhold directory information, approvals for taking courses as Audit, Pass/Fail or Credit/No Credit.
- Receiving 100% refunds for partial withdrawals. (There is no refund for these after the Census Date)
- Schedule adjustments (section changes, adding a new class, dropping without a "W" grade)
- Being reinstated or re-enrolled in classes after being dropped for non-payment
- Completing the process for tuition exemptions or waivers through Financial Aid

State-Mandated Course Drop Policy

Texas law prohibits a student who began college for the first time in Fall 2007 or thereafter from dropping more than six courses during their entire undergraduate career. This includes courses dropped at another 2-year or 4-year Texas public college or university. For purposes of this rule, a dropped course is any course that is dropped after the census date (See Academic Calendar for the specific date).

Exceptions to the 6-drop rule may be found in the catalog. Petitions for exemptions must be submitted to the Enrollment Services Center and must be accompanied by documentation of the extenuating circumstance. Please contact the Enrollment Services Center if you have any questions.

It is the policy of The University of Texas at Tyler to protect the confidential nature of social security numbers. The University has changed its computer programming so that all students have an identification number. The electronic transmission of grades (e.g., via e-mail) risks violation of the Family Educational Rights and Privacy Act; grades will not be transmitted electronically.

If you require assistance during an evacuation, inform your instructor in the first week of class. Do not re-enter the building unless given permission by University Police, Fire department, or Fire Prevention Services.

 - iii. “Collusion” includes, but is not limited to, the unauthorized collaboration with another person in preparing academic assignments offered for credit or collaboration with another person to commit a violation of any section of the rules on scholastic dishonesty.
