SYLLABUS

In 1945, Western Europe laid in ruins, the collective action of more than four years of total war. The international political hegemony of Europe had been shattered, and the new superpowers, the United States and the Soviet Union, had supplanted Europe as models of political and economic development. In 1945, few observers would have predicted that within less than two decades Europe would find a new way to industrial prosperity and political stability. Yet, Western Europe did experience a remarkable phase of economic and political resurgence, characterized by industrial growth, collective affluence, and effective parliamentary governance.

Today, many Western European nations enjoy higher per capita standards than the United States. How are we to explain the success of post-war Western Europe? What does the future hold for such an economically, politically, and culturally diverse continent?

Will Europe unite in the twenty-first century, or will a new hegemon arrive to dominate the continent? This course seeks to explore these and other questions by providing the student with a thorough analysis of the historical, political, and economic situation in Western Europe.

Learning Outcomes:

After successfully completing this course, students should be able to demonstrate:

- familiarity with terminology used to study Political Science and Comparative Politics
- basic knowledge of a variety of histories, cultures, and ideologies and their impact on current European societies

Guidelines for Research Paper for POLS 5330

Spring 2025

Due: April 18, 2025

1. Write a seven-to-ten-page paper on a major Western European political figure (current or historical). Examples include Charles de Gaulle of France, Konrad Adenauer of Germany, Margaret Thatcher of Great Britain, Angela Merkel of Germany, and literally hundreds more.
2. Discuss his/her life (autobiography) and then focus on the person's contributions to his/her country or Europe overall.
3. Conclude by analyzing the political figure's successes and/ or failures.

The paper should be seven to ten pages in length, excluding title page and bibliography.

The font size should be 12-point Times New Roman, and the paper needs to be double spaced.

Use at least ten sources and use proper citation styles. (MLA, APA or Chicago style (footnotes or endnotes plus bibliography) are acceptable).

For citation style question please consult Kate Turabian “A Manual for Writers “on reserve in the library.

Required Artificial Intelligence Syllabus Language:

UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools’ ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler’s Honor Code. Faculty and students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. You are ultimately responsible for the quality and content of the information you submit. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity. The student will be subject to disciplinary actions as outlined in UT Tyler’s Academic Integrity Policy.

AI is not permitted in this course at all. I expect all work students submit for this course to be their own. I have carefully designed all assignments and class activities to support your learning. Doing your own work, without human or artificial intelligence assistance, is best for your efforts in mastering course learning objectives. For this course, I expressly forbid using ChatGPT or any other artificial intelligence (AI) tools for any stages of the work process, including brainstorming. Deviations from these guidelines will be considered a violation of UT Tyler’s Honor Code and academic honesty values.
