Course objective: The primary objective is for you to describe how the physical and human geography of a region can be unique yet also share many qualities with other regions. Although you will learn the locations of key places and landforms in order to become globally aware citizens, *this course's objective is not to promote or reward memorization.* The objective is to provide a geographical context for world events, to make spatial connections, and to understand the importance of geographical contexts in our everyday lives. By the end of this course, you should be able to read and synthesize world events and maps.

Course format:

Modules are used within Canvas, accompanied by the Textbook publisher's Cengage MindTap website. Students will complete various assignments for each assigned chapter (module). Students will read textbook chapters and answer questions on the readings with various assignments such multiple-choice/essay exercises, videos, and quizzes listed in **MindTap**. Students will also participate in **Discussion** threads and complete **Country Report** assignments on Canvas.

Grades are based on completion of each module by **DUE DATE**. Late assignments are penalized 10%.

Faculty-student interaction and student-student interaction –

Online Class Discussion – Periodic Class discussion, ranging from informal discussions to organized discussion topics will be an important part of the class. It is vital that the students **participate** in the discussions to receive the maximum benefit from the course. Students will be expected to participate in discussions based on instructor-initiated questions, using the Discussion_Board function of Canvas. Critical comments from the instructor on student responses to discussion questions will be delivered as private emails and not posted to the Discussion Board. The instructor will periodically ‘intervene’ in the Discussion Board to re-direct, correct, or elaborate on the interactive class discussions. Discussion scores are posted on the Canvas site according to an appropriately time schedule to give students clear indication of their progress. Discussion Topics will be on relevant Current Events of the Topics we are studying.

Expectations and Feedback – Occasional Instructor Announcements are posted on the Canvas course site to remind students of certain due dates, changes, discussions topics, and any new course material provided via the course Canvas site. The instructor will provide email feedback as needed to students concerning the completion and assessed quality of written assignments, and quizzes. Quizzes, Discussions, and Exercise scores are posted on the Canvas site according to an appropriately time schedule to give students clear indication of their progress. Additional student-instructor interaction will be available via email or through appointment only.
