

COURSE-OUTLINE

Fall 2024

Machine Learning- CSCI 4350

(Hybrid Synchronous class)

Room: COB 255

Tuesday-Thursday 12:30-2:00 PM

Instructor: Arun Kulkarni, Ph.D. Professor of Computer Science

Office: COB 315.07

Course Description: The course will provide overview of machine learning system and describe algorithms for implementing various stages of a machine learning system. Various stages include preprocessing, classification, clustering, regression analysis, and post processing. These stages can be implemented using statistical methods, non-parametric methods, neural networks, fuzzy inference systems, fuzzy neural systems. Such techniques will be introduced in the course.

Couse Objectives:

This course is designed with the following goals:

- Identify methods for data cleaning, replacing missing data, and normalization
- Develop models for supervised classification using discriminant functions, neural networks and fuzzy logic systems.
- Develop clustering models using K-means clustering, neural networks and fuzzy logic systems.
- Develop software to analyze data using decision trees.

TEXTBOOKS:

Stephen Marsland (2015). Machine Learning an Algorithmic Perspective. CRC Press, Boca Raton, FL.

REFERNCE BOOKS:

- 1) Kulkarni, A. D. (2001). Computer Vision and Fuzzy Neural Systems. Prentice Hall PTR, Upper Saddle River, NJ.
- 2) Sergios Theodoridis (2015). Machine Learning. Elsevier Academic Press.
- 3) Jiawei Han and Micheline (2011). Data Mining – Concepts and Techniques. Morgan Kaufmann, San Francisco, CA.

PRE-REQUISITES: Structured Programming, Linear algebra background

Tentative time allotment for the course will be as follows:

Topic	Hours
Introduction	3
Machine Learning Overview	3
Pre-processing Techniques	6
Feature Extraction	6
Supervised Classification	6
Unsupervised Classification	6
Neural Networks	3
Fuzzy Inference Systems	6
Post Processing Techniques	3

EVALUATION:

90-100	A
80-89	B
70-79	C
60-69	D
0-59	F

SCHEDULE

		Evaluation
Test 1	Thursday, 3-OCT-2024	70 %
Test 2	Thursday, 14-NOV-2024	
Final	Thursday, 12-DEC-2024	
Class Participation		5 %
Assignment 1	Tuesday, 26-SEP-2024	25 %
Assignment 2	Thursday, 17-OCT-2024	
Assignment 3	Thursday, 7-NOV-2024	
Assignment 4	Thursday, 5-DEC-2024	

Academic Dishonesty: You are expected to do your own work. You may assist each other with general concepts, but direct assistance with a particular assignment or any attempts to gain an unfair academic advantage will not be tolerated. Cheating is considered a serious academic offense both by the department and the University. It may result in a failing grade from this course for all parties involved. The instructor reserves the right to ask you to explain any assignment that you turn in to judge if the work is yours.

Usage of AI tools: I expect all the work students submit for this course to be their own. I have carefully designed all assignments and class activities to support your learning. Doing your own work, without human or artificial intelligence assistance, is best for your efforts in mastering course learning objectives. For this course, I expressly forbid using ChatGPT or any other artificial intelligence (AI) tools for any stages of the work process, including brainstorming. Deviations from these guidelines will be considered a violation of UT Tyler's Honor Code and academic honesty values.

Disability/Accessibility Services: In accordance with Section 504 of the Rehabilitation Act, Americans with Disabilities Act (ADA) and the ADA Amendments Act (ADAAA) the University of Tyler at Texas offers accommodations to students with learning, physical and/or psychological disabilities. If you have a disability, including non-visible a diagnosis such as a learning disorder, chronic illness, TBI, PTSD, ADHD, or you have a history of modifications or accommodations in a previous educational environment, you are encouraged to visit <https://hood.accessiblelearning.com/UTTyler> and fill out the New Student application. The **Student Accessibility and Resources** (SAR) office will contact you when your application has been submitted and an appointment with Cynthia Lowery, Assistant Director Student Services/ADA Coordinator. For more information, including filling out an application for services, please visit the SAR webpage at <http://www.uttyler.edu/disabilityservices>, the SAR office located in the University Center, # 3150 or call 903.566.7079.
