COURSE EVALUATION AND REQUIRMENT DESCRIPTION

Performance Assessments: Grading is based on the total number of points accumulated by each student at the end of the semester for course participation in reading assignments and discussion board and resource posts, as well as performance on quizzes, a school evaluation, and the end of course philosophy statement and curriculum assessment/analysis, which serves as the final exam.

1. Reading Assignments and Discussion Board Participation

Students are expected to respond to all assigned discussion questions and actively respond to peer discussions via the online course Discussion Board. Participation in the Discussion Board fulfills several important functions, including:

- Ensuring students keep up with the required readings and online lectures;
- Enabling students to utilize higher order thinking skills and critically reflect on readings;
- Providing opportunities for greater interaction within the course online environment;
- Providing opportunities to learn from classmates;
- Preparing students to complete weekly quizzes; and
- Preparing students to create a personal philosophy statement and conduct a curriculum assessment.

To earn full credit on each discussion (25pts per discussion), students must: (1) write complete answers to four discussion/reflection questions, *and* (2) comment on a classmate's discussion responses. Each posting should sufficiently answer all components of the questions and provide evidence that the student read and understood the readings. Refer to the Discussion Board grading rubric posted online for more details. A penalty will be assessed for answers that do not adequately address the question, and/or which provide evidence that the student did not actually read/review all required materials (videos, etc.) included in each module.

In responding to peers, students are expected to maintain a high level of professionalism and add additional information or suggestions cited from the materials covered in each module and additional information found outside of the class. While it is fine to disagree and discuss alternative views, flaming" (hostile, insulting and/or disrespectful online interactions) or other inappropriate posts will not be tolerated, and will receive zero credit. There are a total of 10 discussions (250 points) and an introductory discussion board post (5 total points); 255 total points, weighted at 40% of the final course grade. ***All discussion responses are due by the date and time indicated on the course schedule. No credit will be given for late postings.***

2. Resources and Current Events

Students are required to search for and share related online resources and/or information pertaining to the material we are covering during the course. Examples of resources to be shared include online articles and videos related to the topics covered, multicultural teaching materials and resources that could be used in the classroom, and news releases and/or current events impacting the total school environment. There are three (3) required online resource entries (10 points for each entry). Each entry must include 2 different online resources, and each resource (URL) must include a 2-3 sentence description of the resource, as well as a statement regarding the connection/significance to the content we are covering. Resources and Current event entries 30 points, 5% of the final course grade.

3. Quizzes

Chapter quizzes will cover the required readings from each module, including the textbook and other online sources, as well as information from class discussions and communications. There are a total of six (6) quizzes. Each quiz is worth 10 points (60 total points) weighted at 15% of the final course grade.

Quiz dates are listed on the online course schedule and must be completed by deadlines. No credit will be given for late quizzes.

4. Multicultural Evaluations. Students will assess the environment of their school and create a recommended implementation plan to make it more consistent with the multicultural realities of the United States and the world by conducting an Instructional Materials Evaluation (25 points) and a School Evaluation (25 points). Evaluation = 50 points, 20% of the final course grade.

5. Philosophical Statement

The final exam for the course requires students to create a personal philosophical statement describing the concepts, principles, theories, and practices of multicultural education most important to the success of students in their classroom, including effective leadership, instruction, and management strategies for work in diverse educational settings. The philosophical statement is worth 55 points, weighted at 20% of the final course grade.

Grading:

The following grading scale will be used to determine students' final grade:

Course Grading		
Assignment	Points	Percentage
Discussion Board (1 Introduction x 5pts and 10 Discussions x 25pts)	255	40%
Resource and Current Event Submissions (3 Submissions x 10pts)	30	5%
Chapter Quizzes (6 Quizzes x 10pts)	60	15%
Multicultural Evaluations (2 Evaluations x 25pts)	50	20%
Philosophical Statement	55	20%
Total Points	450	100%

Grading Scale based on weighted percentages: 100%

A = 90%

B = 80%

C = 70%

D = 60%

F = 59% and below

Course Policies:

Canvas. Students will access all components of the course through Canvas. Any changes to the course schedule, schedule of assignments, or any special assignments will be posted on Canvas. Students are

expected to regularly check Canvas for updates and to download class handouts and materials. Online participation is imperative to the success in this online course. Students are expected to regularly review the course management system, check email, and contribute to course assignments.

Make-Up Discussions and Quizzes. All assignments are due on or before the dates indicated on the course outline. Each written assignment must be typewritten and submitted in Canvas. There will be NO make/up activities or exams for this course unless missing online work is due to an emergency or other reason previously discussed with the professor.

No email attachments of assignments will be accepted. Submission deadlines are final and access to links are removed after deadlines have expired. NO LATE assignments will be accepted unless a valid pre-approved or medical reason has been discussed with the professor. If an assignment is not completed on time due to a documented illness, funeral, or other university related activity, then a make-up date can be scheduled with the professor. All late assignments or non-submitted assignments will receive a score of zero points.

Academic Dishonesty. To be successful in this class, you must invest time for study. Honesty is expected. Academic dishonesty (cheating, plagiarism, collusion) will NOT be tolerated and will result in a grade of zero (0) for the assignment. A second infraction will result in automatic failure of the class. Dishonesty is defined as (i) the use of unauthorized materials, (ii) any communication with peers during quizzes, (iii) representing another's work as one's own (i.e., plagiarism) or (iv) fabricating information. The professor reserves the right to determine occurrences of cheating. Additional information on Academic Dishonesty is found in the Selected University Policies section of this syllabus.

UT Tyler Policy on Artificial Intelligence. UT Tyler is committed to exploring and using artificial intelligence (AI) tools as appropriate for the discipline and task undertaken. We encourage discussing AI tools' ethical, societal, philosophical, and disciplinary implications. All uses of AI should be acknowledged as this aligns with our commitment to honor and integrity, as noted in UT Tyler's Honor Code. Students must not use protected information, data, or copyrighted materials when using any AI tool. Additionally, users should be aware that AI tools rely on predictive models to generate content that may appear correct but is sometimes shown to be incomplete, inaccurate, taken without attribution from other sources, and/or biased. Consequently, an AI tool should not be considered a substitute for traditional approaches to research. Students are ultimately responsible for the quality and content of the information submitted. Misusing AI tools that violate the guidelines specified for this course (see below) is considered a breach of academic integrity, resulting that the student will be subject to disciplinary actions as outlined in UT Tyler's Academic Integrity Policy.

For this course, students can use AI platforms/tools to help revise and edit their work (e.g., to identify flaws in reasoning; to help generate new ideas; to spot confusing or underdeveloped paragraphs; to correct citations; and/or to serve as a personalized learning tool). When submitting work, students must identify any writing, text, or media generated with the assistance of AI following the APA guidelines listed within the course.

Safe Zone. The professor considers this online classroom to be a place where all students will be treated with respect as a human being - regardless of gender, race, ethnicity, national origin, religious affiliation, sexual orientation, political beliefs, age, or ability. Additionally, diversity of thought is appreciated and encouraged, provided you can agree to disagree. It is the professor's expectation that ALL students consider our online classroom a safe environment.
