TEACHING STRATEGIES

This is a face-to-face course and in this course, we will focus on group supervision. During this course we will utilize lectures, discussions, reading and writing assignments, practice and role-plays, reviewing of sessions, presentations, and other experiential activities. Self-reflection, self-evaluation, and offering and receiving feedback are also important instructional methods in this course.

Canvas (<https://www.utt Tyler.edu/canvas/>)

Canvas will serve as the overall structure and launching pad for all our activities in this course. In Canvas, you will find announcements, assignments, course schedule, discussion boards, links to outside activities and so on. Within each module folder, the activities necessary to successfully complete that module are described in great detail. It is students' responsibility to examine each module and get in touch with the instructor immediately if they are not clear about the requirements prior to assignment due dates.

COURSE POLICIES

INFORMED CONSENT STATEMENT

Faculty members are dedicated to the educational, personal, and professional growth and development of our students. Faculty are in a unique position as both instructors who assess students' academic skills and members of the counseling profession with an ethical obligation to the profession. In both of these roles, it is the faculty's responsibility to evaluate student competencies within the realm of professional counseling and to address any concerns regarding students' professional competence. As such, please be aware of the following information regarding this course:

- The counseling profession encourages that counselors fully integrate their own personal attributes and identity, as well as their strengths and weaknesses, into therapeutic processes. Therefore, self-awareness is critical because this knowledge relates to being an effective therapist.
- There will be an emphasis in many courses on self-awareness/exploration, as well as giving feedback to peers. Although uncomfortable at times, we encourage students to be open to self-exploration, since we frequently ask clients to do so.
- At times, class may include experiential and self-awareness exercises. It is important to distinguish between sharing one's emotional reactions to such experiential class activities and revealing information about one's *personal history*. Self-disclosure of personal history is not required in order to successfully pass any course; however, students may be expected to share their reactions to experiential activities.
- Self-disclosures will not be used as a basis for grading in any course. However, should a student disclose information indicating impairment or the potential for harm to clients, the faculty member may take appropriate action in accordance with the *ACA Code of Ethics* (2005).
- Students often experience personal growth as they progress through the program.

However, the courses are *not* meant to be a means of personal therapy. The focus in classes is on self-awareness and the enhancement and growth of necessary counselor skills.

- Please be aware that, although all instructors strive to create a safe environment for any personal disclosures, we cannot guarantee that other students will maintain the confidentiality of any such disclosures that are made.
- It is each student's responsibility to determine an appropriate level of self-disclosure (i.e. the content and depth of personal information that you share) in experiential learning activities.

ATTENDANCE POLICY

Students **MUST** attend **all scheduled class meetings**. **Please note that this is an accreditation requirement and that making up group hours is not possible.** Please communicate proactively if there are extenuating circumstances.

LATE WORK

All assignments are due according to the timeline established by the syllabus, unless otherwise noted by the instructor. Late submissions will not be accepted.

INSURANCE

Professional liability insurance is required. All students must obtain professional liability insurance, prior to commencing any counseling activity. **Proof of insurance must be uploaded to the student's Tevera account before they can see clients.** You may choose any insurance provider you wish for your liability coverage. As a student member of ACA, you receive insurance through ACA Trust at no cost to you through their website: <http://www.acait.com>.

ETHICAL BEHAVIOR AND PROFESSIONAL CONDUCT

Professional conduct is expected of all students in the performance of counseling and related activities. Students must adhere to the ACA code of ethics, the laws governing counselors (LPCs) in Texas, and the policies of the UTT psychology and counseling department. It is assumed that you have completed the ethics course prior to this class and that you know the ACA code of ethics, understand the concept of "standard of care/practice", and are familiar with Texas laws governing your obligation as a mandated reporter. **If you are unfamiliar with these basics, inform the instructor during the first class session.** Required remedial activities, a grade of incomplete, a failing grade, or dismissal from the class are potential consequences for engaging in unprofessional behavior. Students are expected to have read and be familiar with the UT Tyler CMHC program Practicum & Internship Manual.

To protect the confidentiality of our clients, it is asked that students refrain from using their laptops and other devices during class.

DIVERSITY STATEMENT

Students are expected to be sensitive to individual and multicultural differences and to treat one another with respect during their experience in this course. Sensitivity to gender/race/ethnicity/ability/sexuality is expected and disrespectful language and/or behavior will not be tolerated. The American Counseling Association has explicit policies, standards, and ethical guidelines regarding diversity issues. In this class, you will be expected to reflect the standards and ethics of the counseling profession, especially in the area of diversity. Any use of written or verbal language should be consistent with the respect and tolerance that are the cornerstone of the counseling profession and should reflect the ACA Human Rights Committee's 1987 statement on tolerance, which states: In order to guarantee that each individual is free to pursue their potential, each member of ACA is charged to (a) engage in ongoing examination of his/her own attitudes, feelings, stereotypical views, perceptions and behaviors that might have prejudicial or limiting impact on others; (b) contribute to an increased sensitivity on the part of other individuals, groups or institutions to the barriers to opportunity imposed by discrimination; (c) advocate equal rights for all individuals through concerted personal, professional, and political activity.

PROFESSIONAL DISPOSITIONS

Professional disposition is an integral component of the course. The **systematic assessment** of students is required by CACREP (2016) Section 4.G.; 4.H. and ACA Code of Ethics (2014) Section F.9: F.9.a; F.9.b. The assessment is completed by the instructor based on the criteria in the table below. The Professional Dispositions component **is not calculated in the final grade**; however, the assessment is (1) part of the CMHC Committee's systematic student review and (2) will be included in the student's academic file.

PROFESSIONALISM STATEMENT

The counseling program at UT Tyler leads directly to certification, licensure, and professional practice in the field of counseling. All students are required to know and adhere to their respective professional associations (i.e., ACA Code of Ethics, 2014). Ethical violations may result in failure of the course and possibly dismissal from the program.

EMERGENCIES

Students must familiarize themselves with services, available on campus and in the community, that are designed to meet the short-term and emergency needs of clients. You will learn to evaluate client emergencies and make appropriate referrals. In the case of an emergency you should contact your site supervisor and/or a backup licensed professional at your site. If needed you can also contact Dr. Holm at 352.266.4983 or Dr. West at 330.780.5153.

SECURITY OF RECORDS

Students are responsible for the security of all records made in relation to a client and case. Clients' records should remain secured in their appropriate location at all times. **Do not e-mail any client records or other identifying information. Email is not a secure method of communication.**

PATRIOT EMAIL

University policy requires that all e-mail correspondence between students and instructor be done via the Patriot account. Check your Patriot E-Mail frequently. Announcements pertaining to class or departmental business will be sent to the student's Patriot account. In accord with university policy your instructor will respond only to student correspondence sent via Patriot E- mail.

COVID-19 RELATED ISSUES

The University of Texas at Tyler strongly encourages our campus community to take the necessary preventative measures to ensure health and safety. In addition to wearing a mask when appropriate, social distancing when possible, covering coughs and sneezes, and practicing good hand hygiene, the COVID-19 vaccine is a protective measure to prevent severe illness due to COVID-19. You can contact your healthcare provider or local pharmacy to schedule a COVID-19 vaccine.

Stay home and contact your professors or supervisors if you do not feel well or have symptoms so that you do not risk exposing others. As a student, you are responsible for informing your faculty of absences due to COVID-19. Regardless of your vaccination status, stay home and follow the CDC guidelines.

Supervision hours consist of time spent processing cases with a supervisor. Supervision includes:

- The required one hour each week with your site supervisor
- The three hours of class time each week
- Individual conferences with your university supervisor or university faculty regarding a client-related situation

Hours That Do Not Count as Direct or Indirect Hours

While potentially related to your educational experience and preparation as a counselor, these activities are not directly related to your practicum and/or internship duties, and therefore do not count as direct or indirect services, nor towards your required hours.

- Travel to and from your site
- Time spent engaged in class work
- Time spent in any class other than COUN 5396/COUN 5397

COUN 5396/5397**Course Syllabus Addenda****Internship I / Internship II****Case Presentation Format**

General Notes Related to Case Studies

- A case study is a synopsis of a client and your treatment of that client. Include only information which has bearing on the case or is consistent with established reporting procedures (i.e. family history, behavioral observations).
- Be as thorough as possible while being succinct. Often, you will have only a few minutes to paint a picture of the client for the staffing team. What you present and how you choose to present it will affect their understanding of the client.
- Consider what points need to be emphasized in your oral presentation. Placing an emphasis on one area (family) while underemphasizing something that was equally important during the clinical interview (medical history) will skew the treatment team's interpretation of the case.

Client: (Just initials)**Session #:****Age:****Recording section: From ###:## to ###:##****Gender:****Race:****Any other important demographic information:**

Presenting Problem: Describe why the client is seeking or referred for counseling. Briefly describe your initial assessment including client presentation (affect, mood, level of functioning, etc.), complaints, family history, and clinical impressions. This should include symptoms (what they are, frequency, duration). Is the client currently taking medication; if so, what is it and what is it for? Be sure and address level of intellectual functioning or alcohol and drug history if applicable.

Assessment Instruments: Include a list (2 minimum) of assessment instruments that you would like to use with this client or the clients family. Remember you can use the Mental Measurements Yearbook to help you decide on assessments. Describe why you might consider this assessment, are there any cultural considerations around this assessment, and what impressions that you may confirm or discard as a result of using the assessment. If you have an opportunity to use an assessment with the permission and supervision of your site supervisor, include the assessment and your interpretation of it. Remember that you cannot ask a client to do an assessment without giving the client feedback. Do not forget to include in-text citation for assessment instruments. Make sure to cite the assessments you picked according to APA 7 guidelines.

Diagnostic Impression: What is this client's diagnosis or what is your impression of a diagnosis that is appropriate for this client? Why is this diagnosis appropriate? If more than one diagnosis should be ruled in or out explain what they are and how you will know if the criteria are met.

Clinical Focus: What are the treatment goals (Treatment plan and goals should be identified collaboratively with client)? Describe the focus of clinical attention, what will you treat first, including specific interventions and rationale.
