Course Catalog Description

An introduction to social and interpersonal influences on behavior, group dynamics, developmental stages of a group, and an overview of theoretical approaches to group counseling. Emphasis is on developing group leadership skills. Includes a 10-hour group experience.

Rationale

Group counseling is generally considered an effective, efficient modality of treatment and is preferred to individual counseling in many settings. While there is some overlap in the skill sets between individual and group modalities, there are also some pronounced differences. This course allows students to explore the group experience as both a leader and participant while exposing them to the fundamentals of effective group counseling and applicability for client populations.

Informed Consent Statement

Faculty members are dedicated to the educational, personal, and professional growth and development of our students. Faculty are in a unique position as both instructors who assess students' academic skills and members of the counseling profession with an ethical obligation to the profession. In both of these roles, it is the faculty's responsibility to evaluate student competencies within the realm of professional counseling and to address any concerns regarding students' professional competence. As such, please be aware of the following information regarding this course:

- The counseling profession encourages that counselors fully integrate their own personal attributes and identity, as well as their strengths and weaknesses, into therapeutic processes. Therefore, self-awareness is critical because this knowledge relates to being an effective therapist.
- There will be an emphasis in many courses on self-awareness/exploration, as well as giving feedback to peers. Although uncomfortable at times, we encourage students to be open to self-exploration, since we frequently ask clients to do so.
- At times, class may include experiential and self-awareness exercises. It is important to distinguish between sharing one's emotional reactions to such experiential class activities and revealing information about one's personal history. Self-disclosure of personal history is not required to successfully pass any course; however, students may be expected to share their reactions to experiential activities.
- Self-disclosures will not be used as a basis for grading in any course. However, should a student disclose information indicating impairment or the potential for harm to clients, the faculty member may take appropriate action in accordance with the ACA Code of Ethics (2014).
- Students often experience personal growth as they progress through the program. **However, the courses are not meant to be a means of personal therapy.** The focus in classes is on self-awareness and the enhancement and growth of necessary counselor skills.
- Please be aware that, although all instructors strive to create a safe environment for any personal disclosures, we cannot guarantee that other students will maintain the confidentiality of any such disclosures that are made.
- It is each student's responsibility to determine an appropriate level of self-disclosure (i.e. the content and depth of personal information that you share) in experiential learning activities

Student Performance Evaluation Criteria & Procedure

1. **Class and Group Participation (10%)** This class has 4 synchronous meeting components via Zoom. Class and group participation includes arriving to live classes on time, coming prepared, and maintaining an active participation in discussions and groups.
Note: The above percentage is for participation only. You are expected to attend all synchronous classes. Due to the abbreviated nature of our live meetings, one absence from a live class will result in a full letter grade reduction AND a remedial assignment, and two absences will result in a failing grade for this course. Students who arrive to a live class more than 20 minutes late or leave more than 20 minutes early will not receive attendance credit for the class.
2. **Discussion Prompts (15%)** On weeks designated in the syllabus, there will be 1 discussion prompt posted to Canvas (5 total). The prompt will be visible to students by Monday at 8am CST of designated week. Students must make 1 original post AND 2 response posts in order to receive credit for that week's discussion. Students will have until Friday 11pm CST to post their own original post, and until Sunday at 11pm CST to complete their response posts.

Students are free to respond to the discussion prompts using a video post or through written format. Students can use varied formats for responses each week.

Written posts: In order to foster graduate level discussions, the original written post minimum is set at 250. Responses to discussion posts should be about 50 words. Responses of "Good job!", "I agree", "Thanks!", etc. are welcome but do not count towards the 50 word minimum.

Video posts: Alternatively, students may fulfill both original and responses discussion requirements at once by recording a small group discussion (3-4 total peers) with other peers in their course section. Each student must discuss their own responses as well as engage with one another's responses. In order to receive credit, each student should post the group discussion video link to his or her own separate discussion post.

PSYCH 5345: Group Counseling and Therapy

- 3. Reading Quizzes (20%)** On asynchronous weeks, students will complete weekly multiple-choice quizzes based on the course content from the week (11 total; all readings and lectures may be included). Students will be given two opportunities to complete the quiz. The final quiz attempt will be the grade recorded. At the end of the semester, the students lowest quiz grade will be dropped.
- 4. Counseling Group Observations (10% each = 20% total)** During the semester, students will watch 2 group demonstrations to enhance their understanding of the group process as it unfolds. For each video, students will be asked to complete a reflection to integrate their observations in the video with course learning. Video links will be provided separately throughout the semester to allow time for students to integrate new learning into their reflections. Video 1 will be released Week 2 and Video 2 will be released Week 8. Instructions for reflections will be provided on CANVAS with each video release.
- 5. Group Co-Leadership and Reflection (15%)** Each student will have the opportunity to practice group facilitation skills by co-leading a psycho-educational group with their peers during the course. Co-leaders will be in charge of developing and facilitating group based on an assigned topic to engage in discussion of the course content. This is NOT a presentation-based format, rather, a psychoeducational group process format, which will be reviewed in the 1st live class meeting. Students will lead group one time, for 50 minutes, during the 2nd, 3rd, and 4th live class meetings. Co-leaders and topic assignments will be determined during our 1st live class meeting. Students will complete a brief written reflection of their co-leadership experience.
- 6. Group Proposal (Capstone project) (25%)** Students will develop a written proposal for the development, facilitation, and evaluation of a group. Choose a setting and population that is relevant to your professional area of interest. The instructor will schedule individual meetings with each student to support in the development of the proposal. See Group Proposal Instructions on CANVAS for further details.

You should plan to work on your assignments around your life and submit them earlier in the week if need be. All assignments coming in any time after their due date/time will be reduced by 10% per day they are late. **NO** assignment will be accepted if submitted more than one week past the due date.
