

**PMHNP Practicum I & 2
NURS 5367 & NURS 5368
Spring 2025**

Scheduled Class Days and Times: Online; Synchronous Meetings

Lead Instructor's Name: Dr. William Hill DNP, APRN, PMHNP-BC

Section(s): all

Additional Faculty will be listed in course

Office: Virtual

Phone: (903) 566-7320

Email: whill@uttyler.edu*

Do not send messages in Canvas, faculty may not receive these messages so they may not be responded to. Please utilize email.

Office Hours: Virtual Office Hours: By appointment for phone call or video conference. Additional days and times may be arranged upon request by instructor. Please email faculty to make arrangements/obtain Zoom link.

Dr. Hill Office Hours

Wednesdays 1500-1800 by appointment.

*Best way to contact staff.

Course Description: This course provides clinical training in the full role of the psychiatric mental health nurse practitioner. Emphasis is placed on the integration of two content areas: the knowledge and skills for PMHNP practice; and the specific mental health needs of adults and older adults. Clinical experiences, lectures, case discussions, and projects allow students the opportunity to develop competencies in the ethical, safe, collaborative, and evidence-based provision of mental health care to adults and older adults in the context of a changing health care system. **(125 clinical hours per course)**

Prerequisites: Successful completion of, or concurrent enrollment in NURS 5367

Student Learning Outcomes:

Upon successful completion of this course, the student will be able to:

1. Demonstrate ability to apply theory and research to children, adolescents and families experiencing complex health problems.

2. Develop an age-appropriate treatment plan for mental health problems and psychiatric disorders based on biopsychosocial theories, evidence-based standards of care, and practice guidelines.
3. Apply and integrate appropriate mental health theory and research in clinical application of the care of adults/geriatrics.
4. Demonstrate provision of ethical, evidence-based mental health care to across the lifespan.
5. Generate appropriate differential diagnosis for mental health problems and psychiatric disorders.
6. Assess impact of acute and chronic medical problems on psychiatric treatment.
7. Demonstrate ability to conduct individual and group psychotherapy.
8. Apply supportive, psychodynamic principles, cognitive-behavioral and other evidence-based psychotherapy/-ies to both brief and long-term individual practice.
9. Plan care to minimize the development of complications and promote function and quality of life.
10. Demonstrate ability to develop treatment plans for acute and chronic psychiatric disorders and mental health problems.
11. Demonstrate understanding of the importance of providing consultation to health care providers and others to enhance quality and cost-effective services.
12. Facilitate the transition of patients across levels of care, as appropriate.
13. Demonstrate understanding of the importance of attending to the patient- nurse practitioner relationship as a vehicle for therapeutic change.
14. Demonstrate ability to therapeutically conclude the nurse-patient relationship when transitioning the patient to other levels of care.
15. Demonstrate ability to address sexual/physical abuse, substance abuse, sexuality, and spiritual conflict across the lifespan.
16. Apply principles of self-efficacy/empowerment and other self-management theories in promoting relationship development and behavior change.
17. Identify and maintain ethical and professional boundaries to preserve the integrity of the therapeutic process.
18. Teach patients, families, and groups about treatment options with respect to developmental, physiological, cognitive, cultural ability and readiness.
19. Demonstration of the provision of psychoeducation to individuals, families, and groups regarding mental health problems and psychiatric disorders.
20. Modify treatment approaches based on the patient's ability and readiness to learn.
21. Consider motivation and readiness to improve self-care and healthy behavior when teaching individuals, families, and groups of patients.

Required Textbooks and Readings:

1. American Nurses Association (2010). Nursing: Scope and standards of practice, 2nd Ed. Silver Springs, MD: Nursingbooks.org. ISBN: 9781558102828
2. American Psychiatric Association (2022). Diagnostic and Statistical Manual of Mental Disorders Fifth Edition Paperback (DSM-5TR). American Psychiatric Association. ISBN 978-0-89042-555-8
3. Johnson, K. & Vanderhoef, D. (2016). Psychiatric-mental health nurse practitioner, 4th Edition, Maryland, Silver Spring. ISBN: 9781935213826
4. Stahl, S. (2021). The Prescriber's guide, 7th Edition. New York, Cambridge University Press. ISBN: 9781108926010

****If you are in a clinical course, all students are required to have an active Clinical Placement Software Subscription.**

Clinical Placement Software Subscription – activated through UT Tyler. Students will be given information regarding the clinical placement software in Canvas the first week of the semester.

Clinical Course Requirements Information:

Clinical Hours Documented within Clinical Placement Software

Clinical hours data should be entered into your Clinical Placement Software each night within 72 hours of the clinical date. Clinical time should not be used to enter data into the clinical placement software. The clinical hours logged in the software and preceptor signature sheet hours must match.

Students are to use the clinical time to see patients as quickly and efficiently as possible. Do not count lunch into the hours entered into the clinical placement software. Students must take a 30 minute lunch if 6 or more hours have been completed.

***Confidentiality* - maintain patient confidentiality by not removing any patient identifiers from clinics other than patient initials for the clinical placement software log as this would be considered a HIPPA violation. Students may not take a printed patient schedule, lab, or any other printed information from the clinic setting. No screenshots or copies of any patient records are allowed.**

Preceptor Signature Sheets

Preceptor signatures should be obtained each day the student is in clinical.

Please use the preceptor signature sheet located in Canvas. Students will need to verify their clinical placement software submissions by showing they correlate with their preceptor signature sheets. The student must add up the time on their preceptor signature sheet and the time on their clinical placement software entries (excluding lunch) and these hours must correlate.

Recommended Textbooks and Readings:

1. Sadock, B. J., & Sadock, V. A. (2022). Kaplan & Sadock's Synopsis of psychiatry: Behavioral sciences/Clinical psychiatry, 12th Ed. Philadelphia: Lippincott Williams & Wilkins. ISBN: 97819751455697.
2. Wheeler, K. (2022). Psychotherapy for the advanced practice psychiatric nurse: A how to guide for evidence-based practice 3rd Edition Springer Publishing. ISBN: 9780826193797
3. Zimmerman, Mark (2013). Interview guide for evaluating DSM-5 psychiatric disorders and the mental status examination. East Greenwich, RI: Psych Products Press. ISBN 9780963382115
4. Boland et al. (2022) Kaplan & Sadock's Concise Textbook of Clinical Psychiatry 5th 978- 1975167486 LWW

Special Course Notes:

Students will receive an email related to APEA Domains for NURS 5368

REQUIRED COURSE EQUIPMENT

- Lab coat
- UT Tyler student name badge (\$15.00)
- UT Tyler patch – purchased locally at CR Scrubs
- Cell phone with internet access
- Web Cam for your computer

APA Guidelines:

Points will be deducted if APA guidelines are not followed, as adherence to these standards is critical for maintaining academic integrity and avoiding plagiarism. Accurate citation and formatting are essential to scholarly work, ensuring that sources are appropriately credited, and the work is presented professionally. Failure to use the updated APA guidelines not only undermines the credibility of the assignment but also constitutes a violation of academic standards. Therefore, it is imperative for students to meticulously apply APA formatting and citation rules to avoid penalties and uphold the quality of their work. Plagiarism will not be tolerated.

Locations of Class: Online, check course calendar for day and time of midweek class meeting. Subject to change, check the calendar published in the course when the semester begins.

This course requires you to use the Canvas learning management system to complete course work. Some assignments are timed and once logged on will need to be completed at that time in the time allotted; ensure you have reliable internet access for this online course. Some semesters there may be quizzes or an exam through APEA. This is accomplished in their online secure website. A link will be provided in the course if this assessment method is in use.

Any exams in this course will be proctored using Guardian Browser or Zoom. You will need to have a webcam and microphone. If you are not able to provide these items, you must contact your professor by the end of the first week of the semester so we can arrange for you to take your exam on campus.

NURS 5367 Assignments and Weights/Percentage/Point Values

Clinical Challenge 1	15%
Clinical Challenge 2	15%
Clinical Challenge 3	15%
Clinical Challenge 4	15%
GENOGRAM Assignment	10%
SOAP Notes	10%*
Clinical Documents	10%
Weekly debriefings	10% Required

NURS 5368 Assignments and Weights/Percentage/Point Values

APEA DOMAINS	10%
Full Clinical schedule due	5%
SOAP NOTE #1	15%
Mid-term CPE	5%
SOAP NOTE #2	5%
APEA Pre-predictor Exam	20%

Clinical Schedule Hours	5%
Final-CPE	5%
Weekly debriefings	10%

*SOAP notes are ineligible for grading/points award if the student does not attend 5 of the mandatory clinical debriefings.

CLINICAL PARTICIPATION: Each student must log 125 hours of precepted clinical time in this class. Observation is NOT ACCEPTABLE in the clinical setting. You must be actively assessing patients and planning care for them. Clinical time may be awarded for OSCE's and for selected other experiences offered by the instructor throughout the semester. You must attend clinical debrief meetings via zoom as scheduled.

All hours must be logged into Clinical Placement Software and all CPE's completed in order to fulfill the clinical requirements of this course.

*****CPE'S ARE A CLINICAL COURSE REQUIREMENT!
YOU MAY BE GIVEN AN INCOMPLETE IF NOT SUBMITTED WHEN DUE.***

You must submit a Preceptor Signature Document in the assignment link along with CPE's (Clinical Performance Evaluations) and Summary of Clinical hours.

Grading Scale:

Specific guidelines and grading criteria for all assignments are in the Modules. Final grades for the course will be determined based upon the following point assignments:

- A - 90-100
- B - 80-89
- C - 70-79
- D - 60-69
- F - Below 60

Grades will not be rounded when calculating the average (79.5 is not rounded to 80, and 89.5 is not rounded to 90). The simple average of all unit exam grades, including a final must be at or above 80% to pass the course. Once the student has achieved a simple unit exam average of 80% or higher, course grades will be determined based on the weighted calculation of exams and other required course work. Students are required to achieve an average of 80% (B) to complete the course successfully.

Although the university policy allows 60 days for grade appeals, the School of Nursing follows a stricter timeline of 10 days to facilitate students' timely progression through the curriculum. In the case of extenuating circumstances, please consult the Associate Dean of Academic Affairs for guidance.

Academic Integrity: Cheating of any kind, as defined in Section 8 of the UT Tyler Manual of Policies and Procedures (MOPP) for Student Affairs (<https://www.uttyler.edu/mopp/>), will not be tolerated. Consequences may include:

- reprimand
- exam failure
- course failure
- expulsion from the Nursing program
- expulsion from the University
- other consequences as assigned

Use of Artificial Intelligence: All assignments in this course are individual assignments. In this class, you will often be discussing course concepts with your classmates and with me, but when you sit down to complete a quiz, write a discussion post, or work on a project, you are expected to do the actual work on your assignments independently.

Use of an AI Generator such as ChatGPT, MidJourney, DALL-E, Open Evidence, etc. is explicitly prohibited unless otherwise noted by the instructor. The information derived from these tools is based on previously published materials. Therefore, using these tools without proper citation constitutes plagiarism. Additionally, be aware that the information derived from these tools is often inaccurate or incomplete. It is imperative that all work submitted should be your own. Any assignment that is found to have been plagiarized or to have used unauthorized AI tools may receive a zero and / or be reported for academic misconduct.

Exam including Clinical Challenges, and homework materials, questions, and problems are the intellectual property of faculty, UT Tyler, or publishers.

- These materials may not be distributed without permission.
- Distributing or uploading them to online resources destroys the integrity of the assignment and the course, allowing others an unfair advantage by letting them view the materials.
- Uploading these materials to online resources is a violation of UT Tyler's academic misconduct policies and may result in formal conduct charges.
- Sanctions for uploading or otherwise divulging the contents of these materials can include:
 - a reduced or failing grade on an assignment
 - a reduced or failing grade for the course
 - removal from the Nursing program
 - removal from UT Tyler

Make- Up Examinations:

1. **Students will be allowed one make-up exam. This make-up exam may be presented as an essay, a case study, short answers, and/or multiple choice. This will be determined by Faculty Discretion.**
2. **Students are to schedule a Makeup Exam prior to the original exam date and up to 48 hours after the exam is missed. This is the student's responsibility.**
3. **The make-up exam must be completed within seven days unless the faculty determines that there are other extenuating circumstances.**
4. **The make-up exam will be scheduled over a four-hour window.**
5. **There are a maximum of two make-up exams per semester.**
6. **All make-up exams will be concluded at faculty discretion and according to university accommodation policies.**

Late Policy: 5% will be deducted each day an assignment is past due unless prior arrangements have been made with your course faculty. Extenuating circumstances may apply.

Repeating a Course: Students repeating this course may not use previously submitted assignments nor utilize the same patients for an assignment. Submitting the same or slightly modified assignments from previous semesters is considered self-plagiarism and is subject to academic discipline, including failing the assignment or the course.

Attendance and Make-up Policy: Attendance/participation is expected. Make-up for exams, quizzes, assignments, and missed clinical time is at the instructor's discretion.

Graded Course Requirements Information:

Clinical Challenges are an opportunity to synthesize materials learned in previous didactic courses and demonstrate clinical competency in the evaluation, diagnosis, and treatment of a patient presented in a time limited unfolding case study. Additional information will be provided in the course.

- Clinical Challenges in the course will be given ONLINE, in a monitored environment. Clinical Challenges, like exams, must be taken during the time specifically designated unless other arrangements are made with instructors prior to the challenge. Special arrangements must be decided on an as needed basis. There is no guarantee that any request will be approved.
- Students must achieve an AVERAGE of 80 on all four Clinical Challenges to pass the course. Even though you may have enough percentage in other areas to raise your overall grade, you still will not pass the course without an 80 overall AVERAGE on all Clinical Challenges.
- Each Clinical Challenges may be opened during the designated hours listed within Canvas. Once opened the student will have a set amount of time to complete the challenge, after the allotted time has expired the challenge will shut off. These are individual assignments and the time will be noted in the assignment.

Students may record 2x their clock hours up to a **maximum of 4 clinical hours for their clinical challenges**, i.e.:

- If you spend 1 hour working on the case study, you should record $1 \times 2 = 2$ hours in InPlace/Exxat.
- If you spend 2 hours working on the case study, you should record $2 \times 2 = 4$ hours in InPlace/ Exxat.
- If you spend 3 hours working on the case study, you should record 4 hours in InPlace/Exxat.
- If you spend 5 hours working on the case study, you may only record a maximum of 4 hours in InPlace/Exxat

You must achieve an 80% or better to count clinical hours! Clinical Challenges count toward the final grade.

Genogram chart and paper: this assignment requires the synthesis of learning from previous didactic courses in the examination of the genogram of the central subject with an accompanying paper constructed in proper APA style that explores the central subject's familial attachment styles, trauma, mental health diagnoses, epigenetics, and coping skills. Additional information and a detailed rubric are found in the course.

SOAP notes: these are weekly required submissions of documentation of the behavior, background, interventions, responses, and plan for future care of a patient seen that week at clinical. SOAP notes are ineligible for grading if a student misses the mandatory weekly debriefings. Ideally the student will write the SOAP note for one of the patients that was seen in clinical that week. Additional information and a detailed rubric are found in the course.

Clinical documents: This consists of items like : the Clinical Schedule, Mid-term and Final CPE, Clinical Hour documentation with preceptor signature, and other documentation concerning clinical attendance. Additional information will be provided in the course.

Weekly Debriefings: Debriefings are held on a weekly basis in the evening on the day of the week as arranged by course faculty. A debriefing is an opportunity for the student to do a case presentation, participate in professional discussion and collegial discourse on the diagnosis and treatment of psychiatric patients seen by the students that week. Students must attend and participate in the weekly debriefings as listed in the course calendar. Students are required to arrive on time, be in a quiet private setting, and have their camera on the entire time. (required attendance is 5 sessions or the student is ineligible to pass the course, and the SOAP notes are ineligible for grading). **Cameras must be on at all times and the student must participate, or credit will not be given.** If a student is driving or otherwise distracted the instructor reserves the right to remove that student from the session.

Students must be on time, if a student is more than 10 minutes later the faculty reserves the right to not admit the student into the session.

Required Debriefing/ Case Presentations:

1. **Five** debriefings are required **per clinical course you are enrolled in.**
 - a. For example, if you are enrolled in NURS 5367 and NURS 5368, you must complete 10 debriefings.
2. Debriefings will be scheduled weekly at a schedule designated by your course instructor.
3. This will consist of each student presenting a patient case that has been reviewed and assessed during clinical hours with your preceptor.
4. The case presentation will include a brief background, Patient history, Family history, Diagnosis, ICD 10 Code, and any treatment recommendations. To allow all students to present, the case presentations will be limited to 5- 7 minutes per student.
5. Debriefings are a requirement to pass the course, as SOAP notes **will not** be graded if debriefing sessions are not completed.
6. Students will only be allowed to attend the schedule assigned to you by your course faculty.
7. Moving to any other scheduled debriefing time is **not allowed.**
8. If a debrief session is missed due to an emergency, please contact your instructor immediately via email and discuss any alternatives. Your instructor may approve or deny alternatives, and the decision is based on faculty discretion.
9. Faculty discretion determines the options for debriefing session makeup-ups, which may include CEUs, separate presentation times, or video recordings of the student case.

Please Note: Detailed information along with grading rubrics for course assignments will be provided in Canvas.

Clinical Course Requirements Information:

1) Clinical Hours Required

NURS 5367 & NURS 5368 are 125 clinical hour per course, 15-week courses. Students can expect a minimum of 10 hours of clinical per week; no clinical time may be scheduled over University Holidays or Breaks nor during Finals Week.

A minimum of 125 clinical hours is required for satisfactory completion of this course and a total of 675 clinical hours is required for the entire program.

The breakdown of clinical hours for the entire NP program is as follows:

- NURS 5367 Adults and Older Adults: – 125 hours total
- NURS 5368 Adult/Gerontology – 125 hours total
- NURS 5370 Children/Families – 125 hours total
- NURS 5373 Capstone Lifespan – 125 hours total

All hours for the entire program are recommended to be completed with an Advanced Practice Registered Nurse (APRN) who is credentialed as a Psychiatric Mental Health Nurse Practitioner (PMHNP-BC). It is permissible to accomplish clinical hours with a Licensed Psychiatrist (MD or DO) or a Physician's Assistant (PA) who has a Certificate of Added Qualifications (CAQ) in Psychiatry. To meet the course learning objectives, a student may choose to work with the aforementioned professionals at a setting that meets the educational needs for the semester.

Please remember that students are not allowed to do clinicals where they are employed unless they are doing them with someone they do not directly report to nor with a relative.

F Each course has a specific population focus for clinicals, and clinical sites/preceptors must be approved by the clinical instructor.

2) Appropriate Clinical Attire

Students should ask their preceptor how they should dress prior to arrival at the clinical site. Regardless of attire the UT Tyler ID badge must be worn at all times while in the clinical area. Remember, UT Tyler NP students are representing themselves and the university as future NP's and need to look the part. If appropriate for the setting, students may wear a lab coat. The Lab coat must have the UT Tyler School of Nursing patch on the left chest. All clothing should be clean, pressed, with no frayed hems showing. Should a preceptor advise the student to wear scrubs then this is permitted only in that preceptor's setting.

3) Preceptor Handbooks

Students are required to give each preceptor a UT Tyler Preceptor Handbook and review the contents of the handbook with them. The Preceptor Handbook is available on Mission Possible in Canvas. **In addition, students are expected to develop specific clinical objectives and provide them to each of their preceptors at the beginning of their clinical rotations.**

4) Clinical Hours Documented within clinical placement software

Clinical hours data should be entered into the clinical placement software each night within 72 hours of the clinical date. Clinical time should not be used to enter data into the clinical placement software. The clinical placement hours and preceptor signature sheet hours must match.

Students are to use the clinical time to see patients as quickly and efficiently as possible. Do not count lunch into the hours entered into **the clinical placement software** if a break was taken for lunch. If the student ate while charting, then this time will count as clinical hours but there should be time noted for breaks. We do not expect students to work the full schedule with no breaks.

Confidentiality - maintain patient confidentiality by not removing any patient identifiers from clinics other than patient initials for **the clinical placement software** log as this would be considered a HIPPA violation. Students may not take a printed patient schedule, lab, or any other printed information from the clinic setting. No screenshots or copies of any patient records are allowed.

5) Preceptor Signature Sheets

Preceptor signatures should be obtained each day the student is in clinical.

Please use the preceptor signature sheet located in Canvas. Students will need to verify their **the clinical placement software** submissions by showing they correlate with their preceptor signature sheets. **The student must add up the time on their preceptor signature sheet and the time on their clinical placement software entries (excluding lunch) and these hours must correlate.**

6) Clinical Performance Evaluations

Students must obtain a passing clinical performance evaluation by the student's faculty member before a grade in the course will be determined. For this course, the student is expected to make an appropriate plan of care for every patient seen in clinical. Students must also meet the satisfactory level of 80% on CPE and/or OSCES.

Please see the Clinical Performance Evaluation (CPE) for specific areas evaluated. Students will be evaluated by their clinical faculty member using several means including, but not necessarily limited to, the following: observation, chart review, speed of patients seen, discussions with the student's preceptor(s), and review of feedback provided by the preceptor CPEs. Clinical performance requires application of key concepts in providing care to individuals and families as evidenced by documentation in the CPE. **TWO CPE's** are required for this course – **one mid-term and one final evaluation**. Students must satisfactorily complete the clinical performance component of the course to be eligible to pass the course. A minimum of 80% on OSCE performance from faculty and a minimum of two satisfactory CPE's from the preceptor must be completed to provide evidence of satisfactory performance. Failure to complete the clinical component satisfactorily will result in a course failure.

Note: At the discretion of the faculty additional site visits and/or clinical hours (in 40-hour segments) may be added to the student's overall course requirement if the student does not perform satisfactorily during evaluation by either faculty or preceptor. In addition, faculty may make unannounced visits to the clinical site or call the preceptor at any time to evaluate a student's progress. Please be sure to keep faculty informed of any changes in clinical schedule/times. Should an unsatisfactory CPE/OSCES be documented, a subsequent CPE/OSCE may be needed. The subsequent CPE/OSCES must demonstrate satisfactory performance in

order for the student to pass the clinical portion of the course. Please note that there is a course requirement that ALL site visits (and all clinical hours) must be completed by the date on the course calendar. If the student fails their OCSEs or CPE, this may result in course failure.

Important Course Dates:

Classes Begin: January 2nd, 2025

Last Date to Withdraw: 03/11/25 Students please notify your course faculty and contact your advisor.

Calendar of Topics, Readings, and Due Dates:

Spring 2025 COURSE CALENDAR NURS 5367 & NURS 5368

There are no clinicals during finals week, Holidays or University Breaks– check academic calendar and do NOT schedule clinicals on finals week or over a Holiday or University Break.
