

**Differential Diagnosis for Mental Disorders
NURS 5363
Summer 2023**

Scheduled Class Days and Times: Online

Instructor's Name: Dr. Sandra Petersen

Office: 3900 University Blvd, Tyler, TX 75799

Phone: (214) 213-4726

Email: spetersen@uttyler.edu

Office Hours: Virtual Office Hours: Monday 7-9pm CST by appointment for phone call or video conference. Additional days and times may be arranged upon request. Please email faculty to make arrangements/obtain Zoom link.

*Best way to contact me is by email.

Instructor's Name: Dr. Laura Hays

Office: Virtual

Phone: 303-912-0932

Email: lhays@uttyler.edu

Office Hours: Virtual Office Hours: Monday 6-10pm CST by appointment for phone call or video conference. Additional days and times may be arranged upon request. Please email faculty to make arrangements/obtain Zoom link.

*Best way to contact me is by text.

Course Description: Using a case-based approach, students develop advanced skills for the differential diagnosis of mental disorders, including observation and interviewing skills, and the use and interpretation of screening tools, laboratory tests, and behavioral assessments. Case studies will utilize the most current edition of the *Diagnostic and Statistical Manual of Mental Disorders (5th ed., text rev.)* and other appropriate methodologies for diagnosing mental disorders.

Prerequisites: NURS 5350; NURS 5352; NURS 5354

Student Learning Outcomes:

Upon successful completion of this course, the student will be able to:

1. Identify and develop a working knowledge of the DSM-5 categories within a monoaxial system that recognizes social and physical diagnoses have an impact upon the mental health of the whole individual.
2. Discuss and determine an appropriate diagnosis while analyzing to rule out differential diagnoses based upon an evaluation of symptoms.
3. Describe how DSM-5 diagnoses contribute to ethical and efficacious assessment for treatment planning for both pharmacological and non-pharmacological interventions.
4. Explain and compare the assumptions of the medical model, psychosocial models, and developmental models as related to human behavior and the improvement of whole person health.

Required Textbooks and Readings:

American Psychiatric Association. (2022). *Diagnostic and statistical manual of mental disorders* (5th ed., text revision.). (DSM-5-TR). ISBN 978-0-89042-576-3

Carlat, D. J. (2017). *The psychiatric interview* (4th ed.). Walters Kluwer.

Additional literature is presented for reading within each module.

If you are in a clinical course, all students are required to have an active InPlace subscription.

Recommended Textbooks and Readings:

American Nurses Association (2021). *Nursing: Scope and standards of practice* (4th ed.). Nursingbooks.org. ISBN: 978- 0999308868

American Psychiatric Nurses Association, International Society of Psychiatric-Mental Health Nurses, American Nurses Association (2015). *Psychiatric-mental health nursing: Scope and standards of practice* (2nd ed.). Silver Spring, MD: ISBN: 978-1558105553

Jameson, J., Fauci, A., Kasper, D., Hauser, S., Longo, D., & Loscalzo, J. (2018). *Harrison's principles of internal medicine* (20th ed.). McGraw-Hill.

Johnson, K., & Vanderhof, D. (2016). *Psychiatric-mental health nurse practitioner: Nursing certification review manual continuing education resource clinical practice resource* (4th ed.). American Nurses Credentialing Center. ISBN: 9781935213796

Stahl, S. (2020). *The prescriber's guide* (7th ed.). Cambridge University Press. ISBN: 978-1108926010

Required Course Equipment:

Web Cam and microphone for your computer or contact the instructor.

Special Course Notes:

- 1) Proctoring Notice: Four Exams will be given ONLINE, using a proctored service called ProctorU. You must sign up with ProctorU at the beginning of the semester.
- 2) This course requires you to have a webcam and microphone. If you are not able to provide these items, you must contact the instructor as soon as possible so it may be arranged for you to take your exam on campus.
- 3) Exams must be taken during the time specifically designated. If you are unable to take the exam, notify the instructor and the instructor will determine if a makeup exam is warranted. Any potential make-up exam will be done during finals week only, with special permission.
- 4) Exam dates are listed in the Course Calendar
- 5) Students must achieve an AVERAGE of 80 on all four exams to pass the course. Even though you may have enough percentage in other areas to raise your overall grade, you still will not pass the course without an 80 overall AVERAGE on all exams.
- 6) Each exam may be opened during the designated hours listed within Canvas, but you will only have 100-minutes to complete the exam—including the verified time with ProctorU. You must finish the exam by the end time established for the exam. Please pay strict attention to this time limit!
- 7) The module objectives and assigned readings will guide the selection of items for the tests. Emphasis will be on application and synthesis of knowledge.
 - Exam 1 will cover Modules 1, 2, 3
 - Exam 2 will cover Modules 4, 5, 6
 - Exam 3 will cover Modules 7, 8, 9
 - Exam 4 will cover Modules 10, 11, 12
- 8) Absolute integrity is expected from every student in all aspects of the course and students may be dismissed from the program for violations. Cheating on exams will not be tolerated. All persons involved in Academic Dishonesty will be disciplined in accordance with University Regulations and Procedures. You are responsible for reading and following the student guidelines on academic integrity in the Handbook of Operating Procedures (Link to an external site) for UT Tyler.
- 9) Exams are Not open book. No notes, books, papers, or other aids are to be used during any exam. Students are to work individually and submit the test within the allotted time.
- 10) The only access the student will have to the exam will be immediately afterwards during which you will be allowed to review your test and see which questions were missed once the exam is submitted. You should do this while still online with and under the supervision of ProctorU. Do not disconnect from ProctorU until you are given specific permission to do so. Otherwise, an incident report will be issued, and an investigation will be pursuant. There will not be a second look at the exam itself. Do not copy questions, take screen shots, or copy the exam questions by any other method.

- 11) When your test is completed, you must disconnect from the test in Canvas PRIOR TO disconnecting from ProctorU for test security purposes. Any attempts to copy the examination will be viewed as cheating.
- 12) The Discussion Board in Canvas will offer several days post-test to challenge test questions with pertinent rationale, reference, and page number. Only those challenges supported by a rationale and reference will be reviewed. This will be monitored by faculty.
- 13) If necessary, opportunities for individual review of questions regarding the exam will be allowed within 1 week of the administration of the exam. After that timeframe, the exam will no longer be reviewed.
- 14) Any adjustment to exam grades will be at the discretion of the faculty. Grades will be posted on Canvas but should not be considered the official grade for the course until all exams have been taken and final grades have been posted.

Assignments and Weights/Percentage/Point Values

- | | |
|-----------------------------------|-----|
| 1. Exams (four exams at 15% each) | 60% |
|-----------------------------------|-----|

The average of your exams must be greater than or equal to 80 to pass the course. Even if you have enough points to pass otherwise, you will not pass the course without making an 80 average on the four exams. This is to prepare you to sit for state boards.

- | | |
|--------------------------|----|
| 2. Weekly Module Quizzes | 5% |
|--------------------------|----|

There will be a short Quiz given during each course module. These quizzes will remain open through the semester.

- | | |
|------------------------|-----|
| 3. Case Studies (four) | 30% |
|------------------------|-----|

These case studies include the skills for differential diagnosing and treatment. The rubric for assessment of the Case Study is in Canvas; please read and follow the rubric exactly to ensure you are learning all parts of the process and complete the assignment correctly. These are to be written with clarity in a logical process, but do not require a formal APA style.

- | | |
|------------------------|----|
| 4. Required Engagement | 5% |
|------------------------|----|

Zoom meetings are held every Monday evening to process the week's area of knowledge development. Please prepare for engagement as this will be reflected with an Evaluation at the end of the semester. Interpersonal interaction supports the skills necessary for a professional Psychiatric Nurse Practitioner and this engagement is paramount for balancing an on-line process within a relational profession. Muting your camera during the Zoom is less than an engagement.

Grading Scale:

Specific guidelines and grading criteria for all assignments are in the Modules. Final grades for the course will be determined based upon the following point assignments:

- A - 90-100
- B - 80-89
- C - 70-79
- D - 60-69
- F - Below 60

Grades will not be rounded when calculating the average (79.5 is not rounded to 80, and 89.5 is not rounded to 90). The simple average of all unit exam grades, including a final must be at or above 80% to pass the course. Once the student has achieved a simple unit exam average of 80% or higher, course grades will be determined based on the weighted calculation of exams and other required course work. Students are required to achieve an average of 80% (B) to complete the course successfully.

Although the university policy allows 60 days for grade appeals, the School of Nursing follows a stricter timeline of 10 days to facilitate students' timely progression through the curriculum. In the case of extenuating circumstances, please consult the Associate Dean of Academic Affairs for guidance.

Academic Integrity: Cheating of any kind, as defined in Section 8 of the UT Tyler Manual of Policies and Procedures (MOPP) for Student Affairs (<https://www.uttyler.edu/mopp/>), will not be tolerated. Consequences may include:

- reprimand
- exam failure
- course failure
- expulsion from the Nursing program
- expulsion from the University
- other consequences as assigned

Exam and homework materials, questions, and problems are the intellectual property of faculty, UT Tyler, or publishers.

- These materials may not be distributed without permission.
- Distributing or uploading them to online resources destroys the integrity of the assignment and the course, allowing others an unfair advantage by letting them view the materials.
- Uploading these materials to online resources is a violation of UT Tyler's academic misconduct policies and may result in formal conduct charges.
- Sanctions for uploading or otherwise divulging the contents of these materials can include:
 - a reduced or failing grade on an assignment
 - a reduced or failing grade for the course
 - removal from the Nursing program
 - removal from UT Tyler

Late Policy: 5% will be deducted each day an assignment is past due unless prior arrangements have been made with your course faculty. Extenuating circumstances may apply.

Repeating a Course: Students repeating this course may not use previously submitted assignments nor utilize the same patients for an assignment. Submitting the same or slightly modified assignments from previous semesters is considered self-plagiarism and is subject to academic discipline, including failing the assignment or the course.

Attendance and Make-up Policy: Attendance/participation is expected. Make-up for exams, quizzes, assignments, and missed clinical time is at the instructor's discretion.

Graded Course Requirements Information:

- Each of the 4 exams cover 3-4 modules and are independently taken with ProctorU. Each exam covers the material presented in Zoom sessions, readings, and videos found in the class modules.
- There will be an online discussion concerning the specific role of the PMHNP. Each student is to post their considerations and respond to at least 2 other students' posts.
- Four Case Studies include synthesizing of realistic clinical material to prepare the PMHNP for practice of differential diagnosis and treatment in a particular case. The rubric of evaluation looks at the appropriateness of the differential diagnoses and why they are or are not supported, the determination of the correct diagnosis, the level of treatment care required, the diagnostic tools needed to support the diagnosis, noted high risk concerns of 'red flags' with this client, and treatment of the client pharmacologically and non-pharmacologically.

Important Course Dates:

Classes Begin: May 8, 2023

Census Date (withdraw without penalty): May 22, 2023

Last Date to Withdraw: July 12, 2023. Students please notify your course faculty and contact your advisor.

UT Tyler School of Nursing Justice, Equity, Diversity and Inclusion Statement:

The University of Texas at Tyler School of Nursing aspires to create, foster, and sustain a culture of justice, equity, diversity, and inclusion irrespective of one's identity. We value and embrace all backgrounds, experiences, and identities, realizing that no one group, person or perspective has all the answers. We are richer when our individual skills, knowledge, experiences, cultures, backgrounds, and identities are combined in an accepting community. We strive to ensure that every individual gets a fair and equal chance to participate and thrive in a nurturing environment where all feel a sense of belonging. We are committed to intentionally and deliberately creating a diverse community that instills a sense of equitable justice and belonging for everyone affiliated with our school.

School of Nursing Policies and Additional Information:
