

The MSN-Education degree prepares the graduate to apply teaching-learning theory, principles of curriculum development, evaluation methodology and role socialization as a nurse educator in various settings including health care organizations and institutions of higher learning. The graduate develops expertise as an educator of nursing students, patients, consumers and other individuals and groups.

The Master of Science in Nursing program builds on UT Tyler's undergraduate program in nursing and provides a firm basis for doctoral level education.

- Total credit hours must equal at least 36. Students can transfer in up to 9 approved credit hours.
- Elective courses should be chosen to enhance the student's area of professional interest and skill development. These courses may be taken in any discipline, but must be 3 credit, graduate level (5000) courses.
- Selecting either nursing administration or nursing informatics courses as electives may lead to a post-master's certificate either concurrent with, or after, conferral of the MSN degree. Additional information about certificate options is available from the graduate nursing advisor.
- Consult with your advisor as well as the University Catalog for additional information on degree requirements and schedule planning. This is only a recommended outline, subject to course rotation and sequencing.
- **All costs are subject to change and do not include the additional cost of books and materials. For cost estimates, please refer to the Graduate School Tuition and Fee Calculator: <https://www.uttyler.edu/graduate/tuition-and-fees/>.**
