

## Integrated Pharmacotherapy 2: Infectious Diseases

### PHAR 7582

Fall Semester 2024

#### Course Description

This integrated pharmacy course focuses on the application of skills and resources needed for pharmacists to guide patients' infectious-related needs.

#### Additional Course Information

This course will integrate clinical microbiology, the pharmacology and medicinal chemistry of antimicrobial agents, and the epidemiology and pathophysiology of various bacterial, viral, fungal and parasitic infections. The therapeutic application of anti-infective agents for the treatment and prophylaxis of infectious disease will be discussed, along with the dosing, adverse effects, drug interactions, and clinical monitoring parameters to promote their cost-effective, safe, and appropriate use.

#### Course Credit

5 credit hours

#### Class Meeting Days, Time & Location

Tuesdays: 2:00pm – 4:30pm; W.T. Brookshire Hall, Room 235

Thursdays: 2:00pm – 4:30pm; W.T. Brookshire Hall, Room 235

#### Course Coordinator

Young Ran Lee, Pharm.D., BCPS, BCCCP, BCIDP

WT Brookshire Hall, Room #233

Phone: (903) 566-6111

E-mail: [younglee@uttyler.edu](mailto:younglee@uttyler.edu)

Office Hours: Monday and Wednesday 1:00 PM -2:00 PM; other times by appointment

Preferred method of contact: E-mail

#### Fisch College of Pharmacy (FCOP) and UT Tyler Policies

This is part 1 of the syllabus. Part 2 contains UT Tyler and the FCOP course policies and procedures.

#### Required Materials

Most course required materials are available through the Robert R. Muntz Library. These materials are available either online\* (<http://library.uttyler.edu/>) or on reserve†.

### Course Format

The course may include, but are not limited to, the following activities:

- Independent study of selected readings
- Individual active learning strategies:
  - Individual readiness assessment tests (iRATs)
  - Individual application of content and concepts
  - Individual presentation of content and concepts
  - SOAP note(s)
- Team-based active learning strategies:
  - Team readiness assessment tests (tRATs)
  - Team application of content and concepts
  - Team presentation of content and concepts
  - Team project(s)
  - SOAP note(s)
- Lecture
- Educational video clips (online and in class)
- Independent preparation of reflection papers

### Course Learning Outcomes (CLOs)

CLOs	PLO(s) Assessed for this CLO	EPAs	Assessment Methods	Grading Method	ACPE Std. 11 & 12
1. Identify clinically relevant pathogens involved in the etiology of infectious diseases.	1	1, 2	1, 2	ES	/
2. Recognize the clinical presentation and identify distinguishing pathophysiologic features of selected infectious diseases.	1, 6	1, 2	1, 2	ES	4
3. Identify antimicrobial agents and their distinguishing characteristics, including mechanisms of action, spectrum of activity, drug interactions, patient counseling points, and adverse effects.	1, 6, 7	1, 2	1, 2, 3	ES, RUB	/
4. Formulate appropriate antimicrobial regimens for prophylactic, empiric, and definitive therapy for selected infectious diseases.	1, 2, 6	2, 3, 4, 5	1, 2	ES	1, 4
5. Determine the appropriateness of antimicrobial therapy and recommend modification to therapeutic regimens based on disease state criteria and/or patient-specific parameters.	1, 2, 6	2, 3, 4, 5	1, 2	ES	1, 4

## Course Assessment Methods

	Assessment Method	Description
1	Final Exam Multiple Choice or Multiple Selection Question(s)	<i>Standard MCQ and Select All That Apply questions.</i>
2	Final Exam Open Ended Question(s)	<i>Constructed-Response/Fill-in-the-Blank/Matching questions, Short-Answer questions, Hot Spot questions.</i>
3	Skills Assessment	<i>Rubric-based assessments on patient counseling.</i>

Artificial intelligence (AI) tools (such as ChatGPT or Copilot) are permitted only for specific assignments or situations. When AI use is permissible, it will be clearly stated in the assignment directions, and all use of AI must be appropriately acknowledged and cited. Otherwise, the default is that AI is not allowed during any stage of an assignment.

## Grading Policy & Grade Calculation

Grades will be determined based on evaluation of individual and team readiness assessment tests (iRATs, tRATs), individual and team cumulative assessment tests (iCATs, tCATs), midterm examinations, final written examinations, skills assessments, graded application assignments, participation in team-based projects, peer evaluations and other assessment methods that may include, but not limited to, Objective Structured Clinical Examinations (OSCE). Examinations, iRATs/tRATs and iCATs may consist of, but not limited to, multiple-choice, true/false, fill in the blank, short-answer, essay, and problem-based questions. **Backwards navigation will not be available on summative assessments (e.g. iCATs and Final Examination) administered via ExamSoft.**

During the time the course is in progress, students whose cumulative course percentage falls below 75.0% may receive an academic alert and be subject to periodic course content review in special sessions with the course instructor(s). The student's faculty advisor may receive an academic alert to act upon on the student's behalf.

All examinations, tests, and assignments, including the final examination, may be **cumulative**. Students are responsible for material presented during the prior courses. The grading scale for all graded material is below. The final course grade will be assigned according to the calculated percentage and the **percentages will not be rounded upward or downward**. For additional information, see examination/assessment policy below.

### Standard Grade Calculation\*

<b>Individual Component</b>	<b>95%</b>
iRATs/Individual Applications/Activities (iAPPs)	5%
Unit 1 Assessment (iCAT)	20%
Unit 2 Assessment (iCAT)	24%
Unit 3 Assessment (iCAT)	16%
Cumulative Final Examination	30%
<b>Team Component</b>	<b>5%</b>
tRATs/Team Applications (tAPPs)	5%
<b>Total</b>	<b>100%</b>

**\*The final course letter grade will be determined according to the following grading scheme:**

A	90 - 100 %
B	80 - 89.999 %
C	70 - 79.999 %
D	65.0 - 69.999 %
F	< 65.0 %
